

BVL (BOWLERS TO VETERANS LINK) – Fact Sheet

- Who:** BVL is bowling’s own and oldest charity, raising more than \$53 million since 1942 to fund recreation therapy programs that address the emotional and physical needs of veterans and active-duty military, including sports, music, crafts, technology, and adaptive equipment for rehabilitation activities. BVL is a national nonprofit 501 (c) (3) charity that is consistently acknowledged for efficient and effective programming delivered with extremely low overhead. BVL has been recognized as one of “America’s Best Charities” by Independent Charities of America, earned a “Top-Rated” Nonprofit distinction from GreatNonprofits, and is also a member of the Combined Federal Campaign (#93325).
- Mission:** The mission of BVL is to brighten the lives of America’s veterans and active duty men and women through recreational and therapeutic programs and services.
- Benefitting:** BVL is supported by fundraising events and donations from thousands of bowling associations, bowling centers, industry partners and bowlers throughout the U.S.
- History:** BVL was founded in 1942 (known then as the Bowlers Victory Legion) as a campaign from the entire bowling industry to support the U.S. troops. Those first projects during World War II focused on improving morale for troops overseas and insuring that wounded service men receive appropriate and timely healthcare. That mission continues today as the Bowlers to Veterans Link is bowling’s oldest and own charity, raising more than \$1 million annually and more than \$52 million since BVL was founded.
- Recent Highlights:**
- In May 2020, BVL donated a \$100,000 grant to the U.S. Department of Veterans Affairs to support two new programs – Compassionate Contact Corps and Tele-yoga therapy. These funds allow veterans to keep a virtual personal connection during the COVID-19 pandemic with programs that address essential ongoing physical therapy and mental health needs such as depression and suicide prevention.
 - Bowling proprietor David Kellerman, proprietor of Mel’s Lone Star Lanes in Georgetown, Texas, took off in April 2019 to hike the 2,190-mile Appalachian Trail to raise funds and awareness for BVL. The journey ended in mid-September with Kellerman raising more than \$100,000.
 - The PBA50 Tour includes the PBA50 Johnny Petraglia BVL Open presented by Brunswick. The tournament stop, which was held in April 2019 at Countryside Lanes in Clearwater, Fla., raises funds for BVL. Bowling legend Petraglia, a 14-time PBA Tour winner, is a former Vietnam War veteran who has actively supported BVL programs for years. BVL Board Chair John LaSpina is the host proprietor for the tournament.
 - BVL fundraising efforts and donations are generated year-round by the bowling community through a wide range of events, many specifically targeted around Veterans Day and BVL Month in America in November.
- Leadership:** The BVL Board of Directors is comprised of representatives from the United States Bowling Congress (USBC) and the Bowling Proprietors’ Association of America (BPAA). Bowling proprietor John LaSpina of Long Beach, N.Y., is the current Board Chair. The Executive Director is Mary Harrar (mary@bvl.org) – PH: 703.934.6039

BVL FUNDS AT WORK: Military Mental Health Services

Mental Health Services for military:

- The need for funding of mental health services for veterans and active duty military is more urgent than ever.
- At least 20 people in the military community – including veterans, reserves and active duty military – commit suicide each day* ... that's close to one person each hour. In the next hour – another member of the military community will have taken their life.
 - *Veterans are 1.5 times more likely to die by suicide than Americans who never served in the military... and for female veterans, the risk factor is 2.2 times more likely.**
- Based on their era of service, approximately 12 to 20% of our veterans and their families are impacted by PTSD (posttraumatic stress disorder) in their daily lives.#
 - **Operations Iraqi Freedom (OIF) and Enduring Freedom (OEF):** *About 11-20 out of every 100 Veterans (or between 11-20%) who served in OIF or OEF have PTSD in a given year.*
 - **Gulf War (Desert Storm):** *About 12 out of every 100 Gulf War Veterans (or 12%) have PTSD in a given year.*
 - **Vietnam War:** *About 15 out of every 100 Vietnam Veterans (or 15%) were currently diagnosed with PTSD at the time of the most recent study in the late 1980s, the National Vietnam Veterans Readjustment Study (NVVRS). It is estimated that about 30 out of every 100 (or 30%) of Vietnam Veterans have had PTSD in their lifetime.*

How does BVL help? BVL funds recreation therapy programs that address the emotional and physical needs of veterans and active-duty military, including sports, music, crafts, technology, and adaptive equipment for rehabilitation activities.

Why is that important? Recreation therapy helps address isolation and the challenging transition back into everyday life.
